

Butler County Community College Theater

Jendoco Construction served as the General Contractor for the construction of the Butler County Community College *Succop Theater* and Municipal Building.

The 475 seat *Succop Theater* is integral to the Butler County Community College Science and Technology Building.

Completed in August 2002, the theater is utilized as a community theater as well as for the student population.

The theater has state-of-the-art sound and stage equipment, and was acoustically tuned for optimal performance.
