

### Tepper School of Business Carnegie Mellon University Business Level 1

Jendoco Construction Corporation was the successful bidder on the Carnegie Mellon University Tepper School of Business GSIA First Floor Renovations.

The Tepper School of Business is one of premier business schools in the nation. The project entailed the complete demolition and renovation of the first floor including new office layout, meeting rooms, kitchenettes and a student lounge.

The level of finishes were held to Tepper's high standards, and included terrazzo floors, interior custom aluminum doors with frosted glass and cherry cabinetry. In addition, all the requirements and standards for LEED Certification were met.

The project had a very demanding schedule, which was from Commencement to the First day of classes.

Jendoco was able to meet the schedule by working closely with owner and design team.
